

vivera® retainers

Answers to help you **move forward.**

➤ **How often do I need to wear my retainers?**

Talk with your doctor. Typically, you'll wear your retainers full-time for a while, followed by nighttime wear only.

➤ **How long will I have to wear my retainers?**

Retention is a lifetime commitment.

➤ **How are retainers and clear aligners different?**

Clear aligners are made from materials designed to move teeth. Vivera retainers are made from materials designed to hold teeth in place. Look for the Vivera logo as a sign of premium retention.

➤ **Do I have to keep getting new retainers?**

Vivera retainers are designed to be replaced periodically to make sure you always have a strong, fresh retainer.

➤ **Will wearing Vivera retainers affect my speech?**

You may have a slight lisp for a week or two. However, as your tongue gets used to the retainers, any lisp or minor speech impediment caused by the retainers should disappear.

**Clear, discreet
retainer that
works with your
lifestyle, while
keeping your new
smile in place.**

Keep your
smile in place.
**Keep your
life moving
forward.**

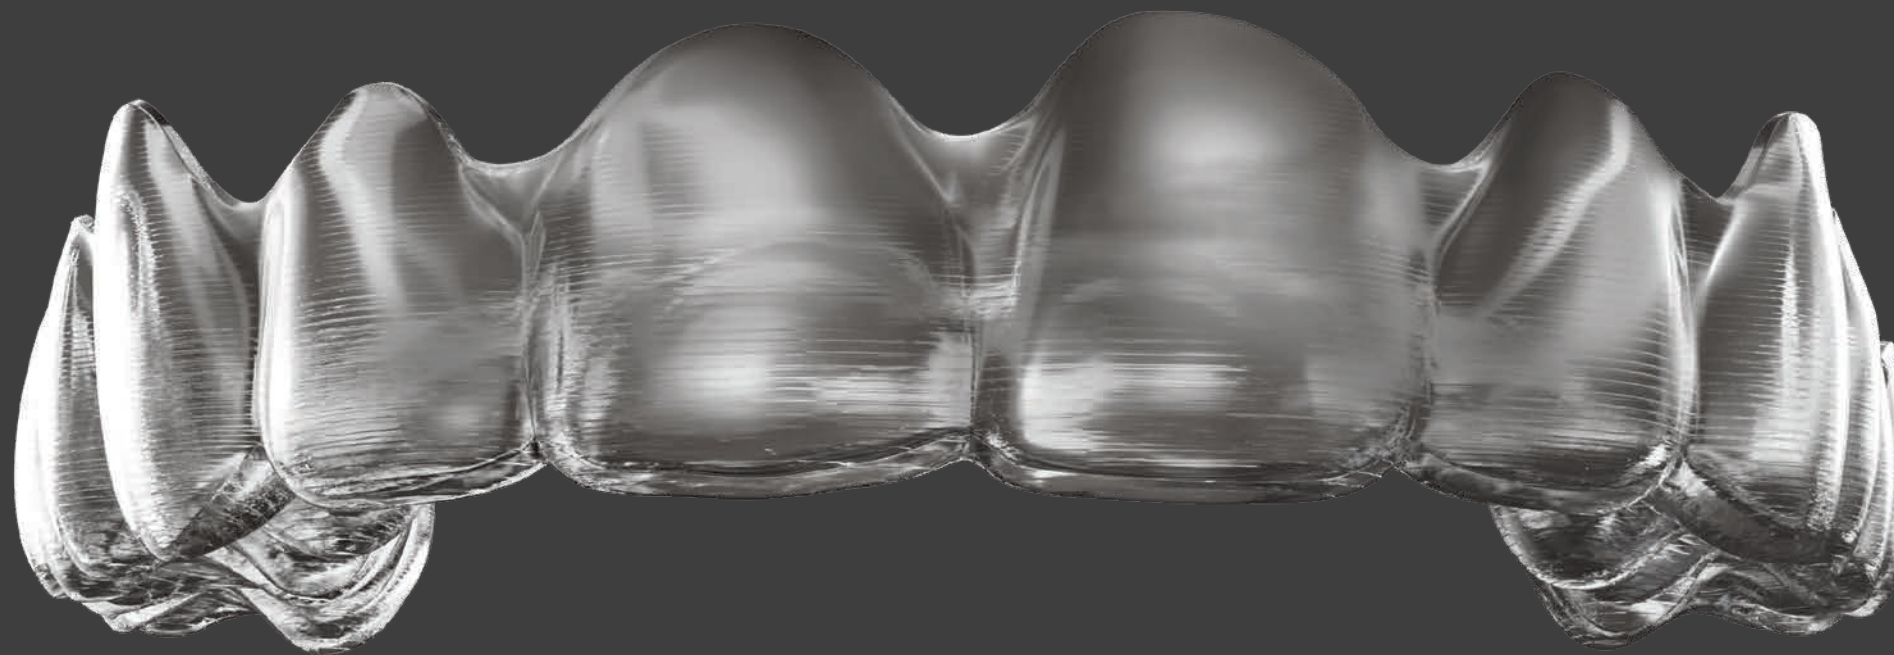

vivera® retainers

The future is yours.

Do you love your new smile?
Of course you do! Now you can
keep it looking great with Vivera®
retainers. Ask your doctor how
Vivera retainers can help you
keep your smile in place.

➤ From the makers of Invisalign® clear aligners, Vivera retainers are custom-made just for you. Vivera retainers offer premium retention, so you don't have to worry about your teeth moving back.*

*Teeth staying in position is dependent on wear according to doctor recommendations and patient compliance.

vivera® retainers

Why Vivera retainers?

- **Removable and easy to clean**
Vivera retainers are removable, so you can keep brushing and flossing as usual. This helps you avoid cavities and extra trips to the doctor.
- **Fit for you and your lifestyle**
Vivera retainers are produced by the makers of Invisalign clear aligners, the world's largest user of state-of-the-art 3D printing technology, creating highly accurate, well-fitting retainers that are easily inserted and fit more comfortably*. Well-fitting clear retainers mean you are more likely to wear them, avoiding setbacks and added trips to the doctor's office.
- **Fewer cracks and breaks**
Vivera material is 30% stronger and twice as durable as materials used in other clear retainers**.
- **Multiple sets, so you always have a backup**
Lost your retainers? Don't worry. With Vivera retainers, it's easy to get a replacement. Your doctor will determine if your smile needs to be rescanned before the order is placed.

*Dentists prefer Vivera retainers over lab-made retainers because they are more comfortable for the patient. Data on file at Align Technology, Inc. as of July 2017. Based on survey data of dentists in the USA who have used both lab-made clear retainers and Vivera retainers (n=101), and were asked to answer the question, "Which retainer do you prefer on the following dimensions?"
**Data on file at Align Technology, Inc. as of October 2018.
